## The Berlitz Kids Instructional Approach

**Age-appropriate.** For kids ages 4-7, our programs provide lots of concrete visual cues like flashcards. Children ages 8-11 are engaged through role-plays, music, games and materials that capture their interest. For students ages 12-18, we provide special services and tutoring.

**Student centered.** Our highly interactive teaching process encourages participation and is focused on the student.

**Accommodates various learning styles.** Multisensory materials and a variety of classroom activities support learning in many different ways.

**Builds student confidence.** Activities help children learn through positive reinforcement, turning knowledge into understanding.

## Learning a new language makes anything possible

Think of language classes as a small investment with a big payoff for the future. Studies show that children who learn a new language score higher on standardized tests and are more flexible at problem solving – enhancing their future education and career opportunities.
