

Berlitz Kids[®] After-School Language Programs

The fun way to build a brighter future

Our conversational method engages children and gets them talking from the very beginning.

Age-appropriate instruction and materials featuring lively, fun activities highlight our programs.

Small class sizes mean children will have more opportunities to speak.

Native-fluent instructors are specially trained in teaching children.

Our global network gives Berlitz Kids the resources and perspective to provide high-quality, culturally rich language instruction.

The Berlitz Kids Instructional Approach

Age-appropriate. For kids ages 4-7, our programs provide lots of concrete visual cues like flashcards. Children ages 8-11 are engaged through role-plays, music, games and materials that capture their interest. For students ages 12-18, we provide special services and tutoring.

Student centered. Our highly interactive teaching process encourages participation and is focused on the student.

Accommodates various learning styles. Multisensory materials and a variety of classroom activities support learning in many different ways.

Builds student confidence. Activities help children learn through positive reinforcement, turning knowledge into understanding.

Learning a new language makes anything possible

Think of language classes as a small investment with a big payoff for the future. Studies show that children who learn a new language score higher on standardized tests and are more flexible at problem solving – enhancing their future education and career opportunities.
